PROFESSIONAL SUMMARY

An Inventory Control Lead with deep experience in directing material flow, procurement coordination, and inventory across fast-paced, regulated manufacturing environments (ISO 13485/ cGMP). Having a record of driving ERP improvements (Epicor Kinetic), maintaining BOMs, item attributes, and replenishment tools for manufacturing operations. Experienced in cross-functional, cycle counting, and lean continuous improvement leadership. Completed selective operational leadership development (LEAD) with active pursuit of getting my APICS CPIM credentials.

CORE COMPENTENCIES

Master Data Management: Item/SKU Setup, BOMs, Attributes
Logistics and Inventory Control: Multi-Million Dollar Inventory Control, PO and Receiving Reconciliation, Annual Inventory Physical Audits, ABC Stratification, FIFO Consolidation, Excess and Obsolete Reduction
ERP & System Analytics: Epicor Kinetic, Advanced Excel (VBA/Macros), TeamDynamix
Quality and Continuous Improvement: ISO 13485 & cGMP Compliance, Root Cause Analysis (RCA), Lean 6S, Standard Operating Procedures (SOPs)

EMPLOYMENT HISTORY

Aug 2025 — Present
Inventory Control Lead, Cogmedix — West Boylston, MA

- Oversee multiple SKUs in the ERP system by their attributes, UOMs, and BOMs to verify the alignment across production planning and execution.
- Reconcile inbound freight receipts and purchase orders against invoices, identifying shortages, excess, and supplier discrepancies, while clearing "Received but not Invoiced" liabilities with finance.
- Partnered with the Warehouse Management to direct material availability, warehouse staging, and inventory accuracy across high-paced, regulated medical device manufacturing assembly lines.
- Partnered with purchasing, production planning, manufacturing engineering, and quality teams to coordinate direct material flow, controlling lot batches
- Led multi-cycle counting programs, annual physical inventory, and bi-monthly location audits to manage, control, and improve accuracy from part to bin.

Mar 2024 — Jul 2025
Inventory Control Specialist

- Executed daily cycle counts and scheduled physical inventory and location audits, reconciling within Epicor Kinetic to maintain inventory accuracy across warehouses.
- Partnered with warehouse and accounting teams to investigate inventory variances, perform root cause analyses on receiving and shipment discrepancies, and implement corrective action through Epicor Kinetic.
- Trained and onboarded new warehouse team members on standard operating procedures (SOPs), safety compliance, and ERP transactions.

Sept 2022 — Feb 2024
Material Handler

- Receive and provide incoming material into a warehouse location physically and systematically into the ERP System, performing transactions in real time and confirming its accuracy.
- Kit and/or issue material to work orders to maintain alignment between physical stock and system demand.
- Operated material handling equipment, including forklifts and reach trucks, safely while maintaining compliance with cGMP and ISO quality standards.

ACCOMPLISHMENTS

- Implemented a tracker through the ERP system, "PO not found" for any discrepancies involving missing paperwork (i.e PO, BOL, Packing Slip, CoC).
- Implemented RF Handheld Scanning across multiple facilities to improve the ability and mobility to receive, pick, put away, and ship off inventory and finished goods, accelerating and improving transaction times and inventory accuracy.
- Revised and improved SOP documentation to provide a more detailed understanding of the manufacturing process between Warehouses and Inventory.
- Designed and deployed an automated inventory replenishment tracker and FIFO stock consolidation tool, increasing inventory turns and reducing material aging risks.

EDUCATION

Aug 2015 — Jun 2019 — Electrical, Howell Cheney Technical High School — Manchester, CT

Aug 2023 — May 2027 — Engineering Physics, Mount Wachusett Community College — Gardner, MA

LICENSES & CERTIFICATIONS

May 2026 — Leadership Exploration and Development (LEAD) Program, Coghlin Companies

Sept 2026 — Oracle Cloud Infrastructure Foundations, Oracle

Oct 2026 — Lean Six Sigma Green Belt Certification, Six Sigma Global Instititute
